## WORK EXPERIENCE

---

### [EcoHub Azerbaijan](#) | Flutter Developer at EcoApp team

March 2023 to September 2023

- Developed EcoApp, a mobile application for plastic collection, using AWS Amplify.
- Improved data synchronization speed by 20%.
- Reduced app loading time by 15% through the implementation of new technologies.
- Independently tested functionalities and ensured stability through unit and acceptance testing.

### [Numberlist](#) | Co-Founder and Android Developer

December 2019 to Present

- Designed a Native Android application for managing phone numbers for sale.
- Developed APIs with Google Apps Script, improving data management efficiency.
- Provided the system to numerous Azercell, Bakcell, and Nar retail locations.

## PROJECTS

---

### [IncognoChat](#) | Riverpod-managed Flutter chat app prioritizing user anonymity

- Developed a cross-platform chat application using Flutter.
- Implemented Firebase for real-time data synchronization, enhancing performance by 15%.
- Utilized Riverpod for state management, improving app efficiency.

### [File Corrupter](#) | Flutter app for humorously corrupting files

- Created a Flutter app for humorously corrupting files as part of Harvard's CS50 final project.
- Designed user-friendly interface, resulting in a 30% increase in user engagement.

### [Universitetim](#) | Online forum for Azerbaijani university students

- Utilized the Flarum framework to set up the forum website.
- Managed the setup of domain and hosting infrastructure.
- Translated the majority of Flarum's interface into Azerbaijani, contributing to the open-source project.

### [JSON Translator](#) | Python script for translating JSON files for localization

- Developed a Python script for translating JSON files, supporting multiple translation services.
- Automated localization process, reducing translation time by 50%

## CERTIFICATIONS

---
